HILL—GOODWIN

A wedding of special interest to the people of Bellevue and district was solemnized at the United church parsonage at Bellevue by the Rev. J. W. Oliver on the evening of November 1st, when Miss Millicent, only daughter of Mr. and Mrs. G. W. Goodwin, became the bride of John Hill, eldest son of Mr. and Mrs. George Hill, of Passburg. The ceremony was performed in the presence of a few immediate friends. The young couple have taken up residence in Bellevue.

The Catholic cemetery was first visited. Here floral tributes were placed upon the graves of deceased veterans and addresses were delivered by Mr. J. E. Gillis and Rev. Father Harrington. At the Protestant cemetery, Rev. W. T. Young and Rev. A. D. Currie were the speakers.

At the services, appropriate hymns were sung and the Last Post was sounded.

DEMOCRATS HAVE NOTABLE GAINS IN U.S. ELECTIONS

New York.—The Democratic thrust has made certain inorganic control of the Senate and threatens the domination of the Republicans have had over the House since the Coolidge landslide two years ago.

With the make-up of the 70th congress practically complete, the Democrats have captured seven of the nine places constituting the Republican majority in the Senate, thus leaving the balance of power there in the little group of insurgents elected under the Republican banner.

By taking 14 seats so far from the Republicans in the House, the Democrats have brought about an alignment under which the insurgent group there might be able to take the upper hand in the working control of that body.

Besides the gains in Congress, the Democrats have won the governorships in two potentially Republican states, South Dakota and Colorado, taking control of the highest office in South Dakota for the first time in a quarter of a century.

The Republicans will now have only 48 seats in the Senate after they have filled the vacancy in Maine, caused by the death of Senator Bert M. Fernald. The Democrats will have 47 with the other seat held by Hendrick Shipstead, Farmer-Labor, Minnesota.

The Democrats made a gross gain of 16 all from the Republicans, but lost two to the majority party, leaving a net gain of 14. In addition to the two seats they took from the Democrats and Republicans nominally gained one from the Socialists but in that case Representative La Guardia, of New York, now sitting as a Socialist elected to run this time as a Republican.

Charge Against British Woman Is Dismissed

Criticism of Fascist System Was Only Reason

London.—The Daily Sketch prints a letter from Mrs. Algenon Sladen, niece of Lord Dunsany, who was under arrest at Volos in Italy, for allegedly making "socialist utterances" against Premier Mussolini to the effect that after spending three days and nights in jail her husband and the British consul secured her release on bail.

Subsequently the British ambassador visited Premier Mussolini and the charge against her was dismissed. Mrs. Sladen, according to the letter, says her arrest had its origin in a conversation in a restaurant in which she "merely criticized" Fascism "academically and theoretically" and an Italian woman who disliked her reported her to the authorities.

Noted Musician Is Leaving England

No Future There for Music Says Sir Thomas Beecham

London.—Sir Thomas Beecham, well known conductor, composer and impresario, is disgusted with musical conditions in England and says he is going to the United States to live, taking with him as many English musicians as possible.

"The English people are not worthy of good music or good musicians," said Sir Thomas in an interview with newspapermen. "Concerts have no future. Music has no future. I have no future. Nobody has any future in this country. Do you suppose any decent person, when he gets an opportunity of going to America and playing in an orchestra which plays decent music and is not allowed to play bad music—do you suppose he is going to remain here?"

Invents Theft-Proof Lock

New Device Perfected by Prisoner Serving Life Sentence

Kington, Ont. — Norman (Red) Ryan, serving a life sentence at Port Arthur Penitentiary for bank robbery, has perfected a theft-proof lock for mail bags for which patent right will be sought in the convict's name, it has been learned.

The new device, it is understood, has been submitted to the authorities of the Canadian postal department. Two models have been forwarded to Brigadier-General W. S. Hughes, superintendent of prisons, who will seek to protect the invention.

Contributes To Science Calgary.—Myrtle, the great pacifier who ran wild through the woods of British Columbia during the early part of August, has made her contribution to science. Her skull has been presented to the University of Alberta.

Grain Loadings Show Remarkable Increase

Amount Marketed at October '31 Greater Than Last Year

Winnipeg.—With 110,398,085 bushels of grain marketed, and 63,019 cars loaded as at October 31, the golden harvest of the West is literally pouring over the lines of the Canadian Pacific Railway Company. These figures represent a marked increase in marketing and carloadings over the corresponding period of last year, during which 98,109,648 bushels were marketed and 59,472 cars loaded.

An idea of the magnitude of the October grain movement may be gained from the fact that if the cars loaded during the month were placed end to end they would extend over a distance of approximately 250 miles, while the engines required for the handling of the cars would cover 14 miles of track under one long line.

Translated into terms of bread, the wheat alone would mill into 10,141,136 barrels of flour and would bake into 2,099,219 standard two-pound loaves.

Settlers From U.S.

Publicity Work, It Is Claimed, Would Bring Large Numbers Here

Winnipeg.—The mid-western states are among the most fertile sources for prospective settlers for Western Canada, in the opinion of Colin G. Groff, publicity director of the province of Alberta. He has just completed a tour around the southern exhibition circuit.

Nebraska, Iowa and other mid-western states, he said, had a large quota of farmers who were anxious to move to Canada where their lands were being attracted by cheap land, low taxes and high productivity. Mr. Groff estimated that a number of prospective settlers would visit Alberta and other points on the prairies next spring to ascertain the possibilities of farming in Canada as compared with the United States.

According to Mr. Groff there is still a great deal of misunderstanding about Canada among the United States farmers. Before there is any extensive influx from across those harmful impressions must be removed, he said.

Proceeding With Disarmament Study

Military and Naval Commission Said to Have Overruled Objections

Geneva.—Disarmament studies in the military and naval commission are said to be proceeding with less difficulty after the program was changed to permit submission of the feelings of all delegates. The preparatory commission which will make final decisions on technical matters. The plan had previously called for submission to the preparatory commission of the bare vote of the committees. Discussion in committee has lately been confined to a strictly technical basis with excellent results.

Germany Paying Up

Total Reparations Up To June 20 About \$750,000,000

London.—Mr. Guinness, financial secretary to the treasury, told the House of Commons today that the total payments by Germany in cash or kind, distributed by the Reparations Commission between the Allied Powers on account of reparation, up to June 20 was approximately \$750,000,000. The allocation to the British Empire was \$125,000,000, of which the share of the United Kingdom was approximately \$110,000,000.

A Divisional Point

Moose Jaw.—Alm. Hamilton would like to see a Canadian National railway divisional point established here. He suggested that a petition be presented to Sir Henry Thornton when he comes here on November 15 in connection with the official opening of the C.N.R. bridge over the South Saskatchewan River at Elbow. The assembled aldermen concurred with the suggestion at council last night.

Prince of Wales May Officiate

Ottawa.—The Prince of Wales will be invited to officiate at the formal opening of the caisson of 63 bells in the Victory Tower on Parliament Hill when he comes to Canada. His Royal Highness laid the corner stone of the tower upon the occasion of his first visit to Canada seven years ago.

Guarded By Destroyer

Washington.—A United States destroyer has been ordered to Celba, Honduras, to protect foreign lives and property in the event of revolutionary uprisings in the near future. The action is being taken on the advice of the United States consul at Celba.

Entertained By Royalty

Small Boy Has Enjoyed Ride on Special Train of Queen Marie

Spokane.—A small boy looked at a queen and was carried away from his home for it. Lester Brown, aged ten, was found aboard Queen Marie's special train a few minutes after it had left Sand Point, Idaho. He was in tears. He had slipped aboard the train as it slowed down for Sand Point and had been unable to hop off as it passed the station because of the press of the crowd.

Queen Mary comforted him and the Royal candy was brought into play. He was the Queen's guest until Spokane was reached. Marie, herself, telegraphed the boy's parents. After playing long tag with Prince Nicholas and Princess Ileana, Lester died with the Royal family.

Files First Manitoba Entry

Samuel Lacombe Will Send Crop Samples to Chicago Show

Winnipeg.—Samuel Lacombe, of Brattle, Man., has the distinction of being the first Manitoba exhibitor to file his entries with the International Grain and Hay show, which opens in Chicago November 27. He will send samples of wheat oats and other crops. Mr. Lacombe, who is known throughout the continent for his research efforts in the field of agriculture, attended the exhibition last year as the official representative of the province.

B. C. APPLES ARE PRIZE WINNERS AT IMPERIAL SHOW

Ottawa.—In the overseas section of the Imperial fruit show, now being held in London, Eng., the Associated Growers of British Columbia won the first prize for McIntosh Reds, according to notification received by the Dominion Fruit Commissioner.

The second prize for McIntosh Reds went to the Occidental Fruit Company of Kelowna, B.C., and the third to G. Hilliard, of Kamloops, B.C. The first prize for Jonathans went to the Associated Growers of British Columbia who also received the first prizes for the Cox Orange and Spitzenberg varieties.

The first prize for an exhibit of seven boxes of any dessert variety of apple grown in the British Empire was awarded to an entry of McIntosh Reds, shown by Colin Smith, of Freeman, Ont.

The second prize in this class went to an entry of Northern Spy, belonging to R. A. G. Pollard, of Hantsport, N.S.

Will Be Honored

Kington, Ont.—The honorary degree of Doctor of Laws will be conferred on Lord Willington, Governor-General of the Dominion at convocation of Queens University Nov. 12. Similar degrees will be conferred on Sir J. A. M. McKinnon, Winnipeg, and Sir Clifford Sifton, of Toronto.

Chinese Kill Consul

Peking.—Chinese bandits are reported to have killed Mr. Robert French, consul at Lungchow to Langson, 40 miles to the south.

The Melting Pot in the West

Pick where you will in this group and you will have difficulty in saying which of these girls comes of Russian, British or original Canadian stock. They are typical of the Prairie Provinces where all the nations of Europe come in and settle on the land. And when the next generation rises from the effort and struggle of the first settlers, they are all of them pure Canadian. Their outlook, their appearance,

CONFERENCE IS LIKELY TO LAST UNTIL NOV. 24

London.—Another three weeks in all probability lies ahead of the Imperial conference.

Efforts are being made to speed up work and adjournment of the conference by November 15 is suggested. But in view of the constitutional issues raised by Premier Heriot there are voluminous details still to be dealt with by committees and it is doubtful if the conference can complete its work before November 24.

Premier King is making arrangements to be back in Ottawa for the opening of Parliament in December. He expects to spend a few days in France before sailing for Canada. The Government of the Irish Free State is issuing invitations to the Premier of the Dominions to visit Dublin before returning home. But unless the conference concludes by November 15 it is very doubtful if Premier King will be able to accept.

Premier Mackenzie King, it is understood, does not propose to outline in his statement any additional defence plans on the part of Canada. Following the example of the British ministers he proposes to survey what is being done at the present time, but considers that any additional defence proposals are matters for the Canadian Government and the Canadian Parliament to decide.

Although there has been no official statement on the question of defence as far as Canada is concerned, it is considered probable that any developments by the Dominion along this line will be kept secret for the time being. Premier King already has given an indication of this in promising full co-operation in the development of civilian air routes.

Recommends Lease Of Grain Elevator

Vancouver Harbor Board Supports Request of Alberta Wheat Pool

Vancouver.—The board of harbor commissioners has notified the Alberta Wheat Pool that the board was prepared to recommend to the Dominion Government a lease of number 1 terminal grain elevator here to the pool.

Lieut.-Col. G. H. Kirkpatrick, chairman of the board in making the announcement, said the recommendation contained the proviso that the lease be negotiated on a yearly basis, commencing August 1, each year and the commissioner retain the right to recover use of the elevator at any time by giving notice of intention not later than the previous December 31.

All details as to rental and matters involved remain to be worked out on a mutually satisfactory basis, Col. Kirkpatrick said.

To Help Reduce War Debt

London.—Sir Wilson Mappin, Baronet, of Sheffield, after making certain provisions for Lady Mappin, his daughter and other members of his family, left the residue of the estate to the Imperial Treasury for reduction of the National Debt incurred for the purposes of the recent war. His gross estate was about two and a quarter million dollars.

The Melting Pot in the West

has made them over in its own image. Take for instance the young woman at the left. She is the daughter of a Russian immigrant who came here when she was 12 years old. Another is a teacher from Manchester, England; two are the daughters of a Canadian father and two others are the children of a Russian who came to Canada some years ago. Yet all alike today are typical Canadians.

Tariff Board Applications

Six Applications to Come Before The Board This Month

Ottawa.—Six applications have been scheduled for hearing at a public sitting of the tariff board, to be held in Ottawa on November 18 and 19. The applications selected to come before the board are as follows:

By several Ontario cordage companies, for increased tariff on jute twines.

By the trustees, National Gallery, Ottawa, for decrease of the tariff on objects of art.

By Price, Patterson, Ltd., Vancouver, for reduction of tariff on "tops" for gloves.

By Charles Barber and Son, Montreal, for reduction of the tariff on water wheel governors.

By H. S. Tibbs, Toronto, for reduction of the tariff on foxes and canaries imported for breeding purposes.

By Hunter-Rose Company, Toronto, for reduction of tariff on book sheets (unbound).

The application for a "seasonal tariff" on fruits and vegetables by the Canadian Horticultural Council, as well as that of certain Quebec organizations for a higher tariff on potatoes, will be given a public hearing on December 16.

Germany Trying To Liberate Rhineland

Cabinet Seeking for Plan That Will Overcome Difficulties

Berlin.—Chancellor Marx and Dr. Schacht, president of the Reichbank, with President von Hindenburg have discussed the newest steps in the Franco-German negotiations for the liberation of the Rhineland from the occupational forces. The main difficulty confronting the German cabinet in the present negotiations is to obtain America's direct or indirect approval of the suggestions for a financial settlement and fulfillment of the Thöy program.

The German ambassador to Paris, Herr von Meckeln, and Premier Briand of France have worked out a plan by which Germany and France together would take up a loan in Europe. In return for this financial aid from Germany, France would withdraw the troops from the Rhineland.

The plan does not meet with the approval of Wilhelmstrasse, which fears it would affect adversely the American-German relations, because the plan as proposed to Germany would make it possible for France to obtain money from Germany without having first settled its debts to the United States.

Will Resume Work In Customs Inquiry

Investigation Opens Again In Ottawa

Ottawa.—The commission investigating the department of customs and excise will resume its work in Ottawa on November 15. It was learned here on good authority that the commission, which now consists of three judges, will probably be in Ottawa several days and will then proceed to Brattle, Columbia, if the present plans are carried out, it was said.

Hon. N. W. Rowell, K.C., chief counsel for the commission, is at present in Ottawa, examining records in the department of customs.

Would Amend Bank Act

Proposal to Make System More Acceptable to Needs of Farmers

Winnipeg.—Proposed amendments to the Bank Act, with the object of making the banking system of the Dominion more adaptable to the needs of the agricultural industry, were discussed at a session of officials of the Canadian Council of Agriculture.

A memorandum prepared by A. E. Darby, of the research department, was submitted and after discussion it was decided to circulate the memorandum among the various branches of the council, with the object of bringing the matter finally before the annual convention.

Fossilized Animals Found

Ottawa.—Fossilized remains of a large lion or alligator, ten feet long in addition to those of an animal 25 feet long, and a shark, have been discovered by John Kennedy, vice-president of the United Grain Growers of Manitoba, according to information received by the Minister of the Interior. The find was made in the Souris River Valley, near Estevan, Saskatchewan. Experts of the department will be sent to examine the find.

Received By King George

London.—Premier Mackenzie King, who has recovered from the indisposition which prevented his being present at the Naval manoeuvres executed by the Atlantic fleet, had an audience with His Majesty King George at Buckingham Palace.

TO SUPPRESS ALL OPPOSITION TO FASCISM IN ITALY

Rome.—Fascist Italy, always stirred to delirious enthusiasm by the utterances of its leader, Benito Mussolini, is now seeking with deadly determination to suppress all opposition to Fascism.

Violent demonstrations throughout Italy against anti-Fascists have led to the death and injury of many persons. Greater bloodshed was prevented only by the heroic efforts of heavily reinforced patrols of carabinieri and militiamen, not a few of whom were bruised and beaten while fighting back infuriated mobs which attempted to wreck offices of opposition newspapers and the homes of known opponents of Fascism.

Rioting was checked in a measure through the personal intervention of Dr. Benelli, vice-secretary general of the Fascist party. At Cagliari, Sardinia, Fascist manifestations, after invading the offices of two newspapers, marched to the home of the anti-Fascist deputy, Zursi, in front of which they staged a hostile demonstration, being prevented from smashing in the doors by armed members of the Fascist named Porra climbed the grille of the house and was straddling the balcony when Zursi shot and killed him. Screaming: "Lynch him," the mob again hurled itself against the soldier guards, who beat back the enraged Fascists and arrested Zursi. At Naples the homes of the philosopher, Croce, the dramatist, Robert Braccio, the politician, Labriola, and a number of other oppositionists were wrecked. Six accidents occurred at Venice and elsewhere.

Missionaries Are Safe

Situation in China Now Reported as Very Quiet

Toronto.—Word received at United Church of Canada missionary headquarters here from F. H. Allen, M.D., medical missionary at the general hospital of the West China mission at Tschinlin, Szechwan, China, indicates the situation in that district as very quiet.

"We are planting our regular fall potatoes, and if we have to go they will be ready by the time we get back," Dr. Allen writes.

Dr. Wallace McCallie, missionary, representing the United Church of Toronto in the hospital at Kung-mo, South China, also reports conditions much improved at that station. While the anti-British trade boycott was still militating against some mission work, the hospital again was busy.

Will Discuss Tariff At London Parley

Brought About Changes in Britain

London.—So far the Imperial conference has steered clear of the subject of preferential tariffs which, brought such dramatic changes in British policies 17 years ago. Apart from the conference proper, however, the tariff issue is again emerging.

A few days ago, Walter Runciman, M.P., well known as one of the Liberal leaders in the United Kingdom, and Premier S. M. Bruce, of Australia, engaged in what they called "some plain speaking" on tariff matters, but the controversy died down after some good exchanges of opinion.

Cattle Shipments To Britain

Considerable Falling Off of Shipments From Canada Is Reported

Montreal.—Of 14 cattle sailings from Canada to the United Kingdom during the present month, ten are scheduled to commence in Montreal. This number is slightly in excess of the monthly average for the same period, but is three below the monthly average for the same six months of last year.

Shipments of cattle from Canada this year have been nearly 100 per cent below those for last season over the same period, and some of the monthly totals sent overseas have been within 1,500 head of the corresponding totals for last year, and in most cases have been 3,000 head less.

Conservative Convention

Ottawa.—Hon. Hugh Guthrie has received scores of letters urging that the national Conservative convention, for the selection of a permanent leader, be held in Montreal. Mr. Guthrie is not opposed to Winnipeg but Mr. Meighen thinks the convention should be held in Ottawa. The matter will be dealt with by a committee of nine, representing each province. A delegation of five from each constituency in the Dominion will probably compose the convention.

The New Immigration in Canada

1—Sturdy Scotch family, recent arrivals in Canada on the C.P. liner "Montezuma." 2—An excellent type of settler for the Canadian west.

the spring of 1926 was essentially a new immigration. In explanation he goes on to say:

"The years since the war have served to bring out a virtual revolution in nearly every phase of the matter, as actually for the first time, immigration became a public question received the thought and attention it deserves from the people of Canada, and was realized to be of first national moment. Immigration to Canada in the years before the war might roughly be compared to a broad stream pouring into the Dominion and spreading out uncontrolled in all directions.

"The war ended, and a great popular influx from Europe was expected for Canada. It never took place, largely because the trend was discouraged at the outset. Canada—unlike Australia—then regarded immigration as a possible fresh problem instead of an economic remedy. The Canadian Pacific Railway which, in expectation of a heavy post-war movement, had organized a colonization department, most keenly appreciated the change which had come over conditions in general throughout the country and the necessity of

taking a different view of immigration. The days of surging flow had passed, probably never to return in the same way, and in any case such an haphazard inundation was hardly desirable.

Mr. Chicanot then describes the great immigration work being carried out by scores of immigration societies in Canada which came into existence through the new interest of the Canadian people in immigration. As the result of supervision through these many societies the type of immigrants to Canada shores was greatly improved. "With the various channels beginning to act," continues Mr. Chicanot, "each pouring its trickle of new life blood into Canada the railway—equally solicitous as to keeping these people in the Dominion after arrival—directed attention to the other end of the horn, and set about turning the new popular interest in immigration to practical account. People actuated not alone by the national good, but also by a pride in their own locality and a desire to see it prosper and expand, had merely to have the means pointed out to them in order that their natural sympathy for the newcomers might take practical form."

Samuel Ennis went to Lethbridge last week end to undergo a minor surgical operation.

There will be a service in the United church tonight in observance of Armistice Day. Everyone is invited to attend. Rev. Mr. Oliver, of Bellevue, will officiate.

A seedless apple tree, worth thousands of dollars, perhaps millions, to the fruit growers of Canada, is said to be bearing fruit this year at Abbotford, Quebec.

The eleven-year-old son of Mr. and Mrs. W. H. Chappell was rushed to the hospital on Monday afternoon, where an operation for appendicitis was performed. We understand the little lad is progressing favorably.

Since an epidemic of elopements has hit the Crows' Nest Pass, a hardware store has ordered a shipment of 200 horse halters, which may be attached to your wife's neck and by which you can tie her up or lead her around with you. The price is reasonable.

The Morse News remarks: "For the fifth time, evidence required for the McPherson case at Los Angeles has been stolen. Doubt exists as to the kidnapping of the evangelist, but there is no doubt regarding the kidnapping of the evidence. The judge would be well advised to nail the bench down before somebody runs off with that. A shack where the kidnappers held their victim has also disappeared. Everyone was stealing something, so Ormiston got into line. He stole away. Of all the various exhibits that disappeared, Mrs. McPherson is the only one that came back."

"Doe, what's good for a sprain?"
"Alcohol, my good fellow."
"Well, I think I've sprained my tonsils."

Norway has voted wet, the figures being: for prohibition 421,292; against 531,425.

Mr. and Mrs. D. E. S. Whiteside, of Coleman, were Calgary visitors last week end.

"I lost all my friends last night."
"How come?"
"I sold my car."

Don't forget the annual bazaar of the ladies of St. Anne's church, to be held in the Lodge Hall on Wednesday, November the 24th. Fancy work, home cooking, candy, fish pond. Tea will be served.

Polite Stranger (coming to rescue of man planned beneath upturned car)—Could I assist you—er—my name is Jones?

Man Below (extending hand)—Thanks, my name is Brown; pardon me for not getting up.

BORN AN ENGLISHMAN

An Englishman strolled into a diner where the majority of the guests were Scotchmen. He stood the national programme as long as he could, then, at the limit of his endurance, he rose to his feet and said: "I was born an Englishman. I am proud to be an Englishman, and please God I shall die an Englishman."

There was dead silence for a few moments, until an old Scot got up and said: "Mon, ha'e ye nae ambition?"

Advice to Beginning Authors

1. Take up farming. Then you can be assured of your next meal.
2. Never start out with "once upon a time." You might be stealing some one else's story.
3. Write on tissue paper, so the editors can see through your jokes. Then this form takes up less waste-paper basket room when crumpled.
4. When in doubt how to end a sentence, string out a row of dots. This makes it suggestive and a better seller.
5. Don't enclose stamps with manuscripts. This will be found to be a saving in the long run and is too big a temptation to the editor.—Southern Calif. Wampus.

"The Floral Route to the West"

Gardens and Fountain at C.P.R. Station, Kenora, Ont.

The task of beautifying the lines of the Canadian Pacific Railway across the Dominion is increasing to a great extent each year. The importance of horticultural work in all its branches has been realized and according to plans recently formulated by the Floral Committee of the Canadian Pacific, the work will be greatly extended next spring. Already 1500 parks and station gardens have been constructed along the lines. "The Floral Route to the West" is the name by which the Company's garden system is known. Years ago John Cusar became station master at Markham, Ontario, one of the first stations to be officially opened by the C.P.R. after taking over the Toronto and Bruce Railway. His love of flowers prompted him to plant a little garden at his station. From this evolved a three thousand mile route of blossoms. One of the problems with which the Floral Committee have to contend is the great difference in climatic conditions of the sections through which the lines run. It has been found that the Iceland poppy will grow in profusion at Lake Louise and today the Iceland Poppy at this famous mountain resort is known the world over. On the route from North Bay to Fort William the country is very rugged and the winters severe. Here it has been found that the pansy plant, which is biennial, is most suited to the climate. Thousands of these plants have been placed along the lines in this section each year. Red Rambler Roses have taken a prominent

Station Garden at Montreal West, Que.

place of late as they bloom all summer and require little attention. In fact, a careful study of climatic and soil conditions is being made by the Floral Department of the Canadian Pacific. The interest in the work taken by the employees of the Company is manifest in the work taken by the employees of many C.P.R. stations have been an inspiration to many townspeople to beautify and improve the appearance of their homes. Each year cash prizes are given to the station masters producing the best results, which has a stimulating effect on enthusiasm. However, it is not always the finest gardens that are awarded the prizes. Many features are considered in judging them, such as the form of layout, quality of the soil and the quantity of personal labor involved in obtaining the results.

Here and There

Lethbridge—Ready made irrigated district has surely broken all wheat records with a yield of 72 bushels of Turkey Red winter wheat to the acre on a 37 acre field. This unusual feat was achieved on the farm of Armour and Brimble.

Honey from Ontario, in competition with exhibits from all parts of the world, was awarded first and second prizes at the British Dairy Show held recently in London, England, according to a cable received by the Ontario Honey Producers' Cooperative Ltd.

Vancouver—A giant merger of timber interests in British Columbia, Washington and Oregon, involving \$400,000,000 of capital, is likely to eventuate from plans now under way, according to "The Daily Province." Several of the British Columbia mills—a quarter or a third of the whole—are said to be favorably inclined to the amalgamation.

Montreal—Despite the lateness of the season new immigration to Canada continues at quite an active rate. Week-end arrivals of the Canadian Pacific Steamships "Montclair," "Montcalm" and "Minneapolis" discharged approximately 1,250 third class passengers to be added to Canada's population. Included in the new arrivals was the first contingent of British youth to come out to Alberta under the extension of the Hoadley scheme.

Manitoba's tourist traffic for the 1926 season left over \$7,000,000 in the province, according to the Winnipeg Tourist and Convention Bureau. From the United States a total of 106,710 visitors came into the province of which number 75,012 stayed for a day while 30,698 remained for a longer time. The average stay of the latter was 3 3/4 days. The increase of cars entering the province over those of the previous year was approximately 45 per cent.

In order that a more intimate knowledge of the Canadian Pacific Railway shipping terminals in the vicinity of Montreal might be gained, over 150 traffic representatives of the various industrial concerns in the district were the guests of the C.P.R. in a recent tour of the various terminals. West Montreal, Adirondack Junction, Mile End, East End cattle markets, Angus Shops, Hochelaga and Place Viger were among the terminals inspected by the manufacturers.

We knocked out all the spaces

Were You Born in January?

If you were born in the month of January, your mother's name must have changed when she married. Your eyes are either blue, brown or black. You will be the idol of your family. Refrain from being idle too long. Your birthstone is the garnet.

Your birthday is the second Sunday after two Wednesdays have preceded a sore throat. You are lucky when you win. Avoid losses. Remember the first million is the hardest. You are not perfect. Conquer your faults. Think of George Washington. He is dead. You are in love. Don't marry a girl who is named after a cigar or whose name begins with a "z." She is engaged to another. You shouldn't wear green ties. They don't suit your complexion. When going out try to wear some kind of coat. It will give you more social prestige.—Caroline Buchanan.

CHAPTER XVIII.—Continued

When the hilarious guests, some of them frankly boisterous, began to reassemble into their original groupings and say their good nights, Joanna's gorgeous gown was crushed, her shimmering hair fluffed, and her face sparkling. The night had been like wine to her, and she was vital with the stimulus of it. Dornmaster wanted to linger at his parting, but she mocked at him. When she saw that his face glowed she was pretty penitent and gave him her hand to kiss. To Keattworth she was more serious. She looked up at him rather shyly.

"You know," he said, "I am taking a very marvelous memory with me!"

"Be good to it," was all the comfort she would give him.

Yvonne was confessedly weary. "I always shudder at the sight of the debris after a night like this," she informed Joanna when the last guest had gone merrily on his way. "Shall we go up stairs to my room. We can talk it all over for a while. A party must be talked about before one goes to bed, you know."

They talked until the sun broke into Yvonne's boudoir. Then Joanna, in her tight fitting pajamas and transparent, rolled down, hooded and covered at the table long enough to drink a cup of tea. Many a time my husband carried me home, I was so weak. Then he read in the paper of a woman suffering as I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any bearing-down pains I always take it; sometimes a half bottle or whatever I need. It is my only medicine and I have told many a one about it. Any one wanting to know more about Lydia E. Pinkham's Vegetable Compound, I will gladly write to her. I will send you a recommendation for it for I love my life and strength to it. — Mrs. NEAL BROWN, R. R. 1, Mineopolis, Ontario.

Do you feel broken-down, nervous, and weak sometimes? Do you have this horrid feeling of fear which sometimes comes to you when they are not well? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently will relieve this condition.

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Mineopolis, Ontario.—"I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my husband carried me home, I was so weak. Then he read in the paper of a woman suffering as I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any bearing-down pains I always take it; sometimes a half bottle or whatever I need. Silhouetted in the great quiet room that seemed to reflect her smartness and the youth of her.

Brandon had arranged with her for the visit, that day, to Eggleston at his home on the Avenue. They planned for Joanna to pick Brandon up at his own office in a downtown skyscraper, and drive him, in her new and smart cabriolet, to the Eggleston mansion. This appointment had been for one o'clock, and they were to lunch with the banker. The cabriolet, with its chauffeur in gray that matched the silken loveliness within, drew up in front of Yvonne's shortly after eleven. Joanna, soft and graceful and elegant in beautiful fox trimmed mink, a little black hat pulled down over her eyes, and carrying a planty swagger stick in her hand, tripped lightly down the steps and into her car. Martha had turned her out quickly to make it possible for her to meet her car so soon after eleven. Yet there was nothing of drowsiness in her face or her eyes. She was alert, vibrant, and confident of the supreme perfections of her appearance.

She made her driver put his head inside the door while she gave him instructions—orders that seemed explanations and repetition.

The car did not go down the Avenue in the swiftness of the panorama of other smart cabriolets, toward the office building where Brandon, later

would be waiting for her. Instead it turned into one of the drab streets, also avenues but only in name, and moved swiftly between the pillars of the elevated railway into neighborhood hoods most stifled by delivery and freight vans. It came at last to a cross street which pierced a district of tenements of the better grade—old dwellings made into furnished rooms and cramped housekeeping flats; much the kind of homes as that which had been Joanna's at Mrs. Adams'.

The chauffeur scanned the house numbers, many of which were hidden. Joanna gave him more directions through her speaking tube. He stopped just beyond a corner and opened the cabriolet door.

"It is the fourth house from here on this side," Joanna explained. "You will recognize it by the sign at the side of the door." It reads "John Wilmore, architect." There'll be an old woman with a rag tied around her head come to the door—if any of the children answer you tell them to get the old woman, she's the landlady. She's all right. If she doesn't think you're an officer come to take her in for having a flower pot or something on the first escape. If she does she'll slam the door in your face, so you'd better stick this bill in her hands as soon as she sees you. Then she'll tell you if Mr. Wilmore is in. If it is give her your other bill and tell her to keep her mouth shut about the inquiry. If he isn't tell her that I'm coming in to talk to her."

CHAPTER XIX.

As Visited to John's Quarters

From her silken cushions in the cabriolet Joanna waited impatiently until her chauffeur, after a brief parley at the door of the house to which she had sent him, returned. The man said: "The woman came. She says Mr. Wilmore is not at home."

"Then you may wait for me here." A half score of street urchins already had gathered about the smartly shining cabriolet, its dull gray shades carried from its dainty fittings to the saffron sheen of its expensive hood. Such an imposing car seldom invaded that neighborhood and its placid company of ghosts of the days when the streets of home and not mere sleeping quarters.

The slim, elegant figure that few patrons of a silk curtain would have recognized, smiled at the urchins, pushed through them, and entered, dazing into the depths of the house where John had found for himself a tiny sleeping room and a dressing room, a larger one, with the precious north light, which he could turn into his workroom.

During the days John served at his apprenticeship with the firm of architects who provided him his necessary training. His talents were recognized. A bright future was predicted for him. But, so far, John's returns had been indeed meagre—as is the usual condition of the student of a difficult profession. It is, at times, Foreman, Van Brent & Craig were dubious of their young John Wilmore. It was because he was inclined to be a dreamer. That is, they, his tutors and employers, were of the mind that was much too eager to skip such fundamentals as the proper angle of a drain pipe and contemplate monumental harmonies.

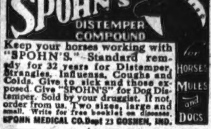

Perhaps John would have agreed with the wisor heads that guided him through his student possibilities. Perhaps that was why he confined his dreaming, as far as possible, to his one large room, and worked there, over his drawing board, with his blue prints and tracings—by the north light in the early mornings, and the incandescent light through the evenings that had not been Joanna's.

The "old woman" who faced the girl with the swagger stick inside the drab hallway, might have been, were she not so frankly frowzy, a replica of Mrs. Adams. She once had been on the stage. The flood gates of her wondrous memories were ever at the point of lifting. Between her and "John's" girl barriers had broken down forever when Joanna, who more than one occasion sat through an evening with John in his workroom, trying at best to fathom the things he talked about, made her come in and recount the triumphs of old with its curlicue calls and its jealousies and marvelous romances. Joanna admitted to John, at that time, that she would much rather hear his landlady's no-no

than listen to his. Instead it turned into one of the drab streets, also avenues but only in name, and moved swiftly between the pillars of the elevated railway into neighborhood hoods most stifled by delivery and freight vans. It came at last to a cross street which pierced a district of tenements of the better grade—old dwellings made into furnished rooms and cramped housekeeping flats; much the kind of homes as that which had been Joanna's at Mrs. Adams'.

logue than listen to him rave about gargoyle and such musty things. The landlady was convincingly dramatic when she identified "John's girl" in the radiant vision which smiled so sweetly at her. There was, even, thrilling drama in her elaborate service to the code that "asks no questions and gets no answers." She measured Joanna from smart little hat to smart, sapphire-buttoned slippers, and reached her own conclusions over the swarthy attack, but she said, only:

"Of course you can, Miss. You can go right in. Mr. John's been gone since breakfast. He isn't doing much work of late, it seems, because he's seemed kind of restless like."

"For some mysterious reason the landlady's gaze rested on the sapphire slipper buckles, as if the depths of them contained the explanation of her lodger's sudden idleness."

Little Helps For This Week

He that loveth not knoweth not God, for God is love.—John iv. 8.

Yet while I love, say God the most, I deem

That I can never love you over much;

I love Him more, so let me love you too;

Yes, as I apprehend it, love is such

I cannot love if I love not Him.

I cannot love Him if I love not thee.

—Christina G. Rossetti

Love to the Lord cannot possibly exist apart from neighborly love. For the Lord's love is love to the whole human race, which He desires to save eternally, and to adorn entirely to Himself, so as for none of them to perish. Wherefore, whoever has love to the Lord has the Lord's love, and cannot help loving his neighbor.

—Emmanuel Swedenborg.

High Altitudes Are Reached

Tropical Climate Is Found Far Above the Earth

The tropics are not the only place to go for tropical weather. If man could ever get there, he would find a tropical climate far above the earth. At very high altitudes the air becomes extremely warm, according to Dr. H. Turner, professor of astronomy at Oxford University. This statement has been confirmed by observations of meteors entering the earth's atmosphere. Although instruments can only get a few miles off the earth's surface, and unmanned instruments carrying balloons ascend no more than twenty miles, the observation of meteors, or shooting stars, extends knowledge of our atmosphere up to about fifty miles.

Italian Women Are Barred From Office

Not Eligible for Municipal Positions Is New Ruling

By a decision made in the Ministry of Internal Affairs, Italian women have been definitely cut off from all participation in the political life of the nation.

It now rules, in fact, that women are not eligible for the post of Podesta. The Podestas are the Italian equivalent of Mayors, except that they are appointed by the National Government instead of being elected by popular suffrage.

The women's suffrage movement has undergone strange vicissitudes under Mussolini's Government in Italy. First he granted the women the right to vote in municipal elections which was generally interpreted as the first step toward granting them suffrage in political elections. No sooner had this law been enacted than the adoption of the system, by Podesta, suppressing municipal elections, deprived the women of their newly-acquired right to vote.

The recent ruling by the Ministry of Internal Affairs rob them also of the right of becoming heads of municipalities which they had won when they were granted the municipal suffrage.

Observe Ancient Custom

Remote Districts of Turkey Still Have Death Crier

In remote districts of Turkey, quaint customs still linger despite Angora's vigilant modernizing arm.

One of the strangest is in the distant village of Cesarea. Whenever a death occurs, a public crier shouts the news through the streets. Even though the death occurs in the depths of the night, the crier immediately shouts out the doleful tidings and wakes all the living villagers with his cries.

The post of Public Death Crier was established many years ago by the Evkaf, an official organization controlling religious affairs, which still continues to pay the crier a regular salary for the performance of his grimly duty.

One of the wisest decisions made in years, and one that will boost amateur hockey here, is to have the intermediate championships finished by February 1st, so that the intermediates will be able to play-off against the senior champions in the Allan cup eliminations. In previous years such a play-off was impossible, as the championship was decided too late.
